Helping families reach the APEX of their lives

APEX PROGRAMS

CHILD, ADOLESCENT AND ADULT

Apex Family Healthcare Services is focused on consistently producing quality therapeutic resources within the greater Atlanta community. We have established a 24 hour on call service for clients in crises and for those who are unable to see us during normal office hours. Our services are available to individuals, families and small groups.

VETERAN CHILDREN AND FAMILY SUPPORT SERVICES

Assisting Veterans and their dependents with developing strategies and techniques in-home, in-school and in the community to address:

- Post Traumatic Stress Disorder
- Depression
- Separation Anxiety
- Substance Abuse
- Other Trauma

FAMILY INTERVENTION

Apex Provides comprehensive family counseling services for individuals of any age on a variety of mental health issues such conflict, low self-esteem, depression, anxiety, divorce, parent/child communication, health issues, substance abuse, and more. Apex professional staff consists of certified therapists who have a master's degree and a minimum of two years post graduate training and/or certification to provide specialty services. Our therapists help people recognize problems and identify possible solutions or alternatives to live happier, more productive lives to reach the Apex of our lives.

APEX PROGRAMS

DEVELOPMENTAL DISABILITIES

- Focuses on the entire family, not just the child with a developmental disability.
- Families are seen as unique and best able to define their own needs. Families direct the support they receive.
- Families have choices about who provides support to them.
- Families are given assistance, information and knowledge necessary to make choices and decisions for themselves.
- Families and their children with disabilities are encouraged to enjoy and participate in all aspects of community life.
- Changes as families needs and desires change.
- Intervention is provided before families experience extraordinary stress and feel in "crises".
- Children unique abilities, needs and preference are recognized and they are encouraged to learn, grow and develop relationships.
- Care and support from neighbors, extended families, friends and religious and community organizations are important. Family support services build on these existing sources of support.

ADDITIONALLY, OUR SERVICES ARE AVAILABLE FOR SELF-REFERRAL ONLINE / REFERRAL FOR COMMUNITY RESOURCES

APEX PROMISE

MEETING THE NEEDS WITH SERVICE

The services we provide benefit children, biological, foster and extended family members as well as those who have served our country faithfully. We accept the challenge that is faced by many as it relates to behavior and emotional issues. We pledge to assist parents, guardians and all stakeholders by implementing a suitable action plan to help each person or family reach their full potential. We promise to do what we say and honor our commitments, the FIRST time!
